Job Description – Frontend Development Intern (React.js)

About the Role

NxtPe is looking for a motivated Frontend Development Intern to help build modern, responsive, and user-friendly web applications. You'll work closely with our engineering and product teams to create intuitive user experiences while learning industry best practices.

Responsibilities

- Develop responsive web applications using React.js.
- Build reusable UI components and maintain design consistency.
- Integrate frontend applications with REST APIs.
- Optimize applications for speed and performance.
- Debug UI issues and improve user experience.
- Participate in code reviews and collaborate with cross-functional teams.
- Stay updated with modern frontend development practices.

Required Skills

- Good knowledge of JavaScript (ES6+), HTML5, and CSS3.
- Hands-on experience with React.js.
- Understanding of component-based architecture and React Hooks.
- Familiarity with Git and version control.
- Basic understanding of REST APIs.
- Knowledge of responsive web design principles.
- Good problem-solving and communication skills.

Eligibility

- Engineering students entering their **7th semester**.
- Students from **Tier 1 or Tier 2** colleges/universities.
- **Minimum academic score of 75% (or equivalent CGPA).**
- Prior internship experience is mandatory.
- Available for a full-time remote internship.
- Passion for building intuitive user experiences and learning new technologies.

What We Offer

- Paid full-time internship.
- 100% remote work.
- Hands-on experience working on live products.
- Mentorship from experienced engineers.
- Opportunity for a full-time role based on performance after successful completion of the internship.
